

Physical and Mental Issues in Piano Performance

By Wan, Agnes H. Y.

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | The Interrelationships between Physical Tension, Performance Anxiety, and Memorization Strategies | In preparing for a concert performance, musicians are faced with tremendous challenges. Besides adequate musical preparation, performers need to be prepared to tackle the physical and mental stresses associated with the performance situations. Knowledge of injury prevention and the nature of performance anxiety, therefore, is essential. For pianists, there is often an additional challenge of playing from memory. An understanding of memory processes would be beneficial to the development of effective memorization techniques necessary for successful piano performance. In this book, the author discusses the issues of physical tension and injuries, overwhelming performance anxiety, and memorization in piano performance. The book demonstrates how these seemingly separate issues are interrelated to one another, and how problems in one area may exacerbate problems in another. It explains that just as tensions and memory difficulties may affect musical deliverance, effective musical communication may help alleviate tensions and memory problems. The author also offers practical solutions in dealing with physical and mental tensions, and suggests techniques for music memorization. | Format: Paperback | Language/Sprache: english | 152 gr | 100 pp.

Reviews

Absolutely essential study ebook. It is among the most remarkable books I have read through. You will like how the article writer composed this pdf.
-- Jessie Rau

An extremely wonderful ebook with lucid and perfect explanations. I was able to comprehend almost everything using this composed e-publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
-- Kimberly Carroll
