Excerpt from The Nature and Variety of Flexibility in Managerial Jobs A number of studies exist that describe job flexibility from particular perspectives, but no attempt has been made to identify either the kinds, or the variety of the opportunities that managerial jobs offer for jobholders to do them differently. The first study was of 98 managers in industrial and commercial companies. The second of 41 senior administrators in similar posts in the National Health Service in the U.K. Both used lengthy open-ended interviews, silent observation and group discussions. Comparisons of the behavior of managers in similar jobs are used to illustrate the diversity of behavior that is possible both in content and method. The common and distinctive aspects of flexibility in jobs are described. The implications of flexibility for our understanding of managerial work and behavior are discussed. The subject of this paper has received little attention either in the management literature or, more surprisingly, from researchers specifically concerned with managerial work or managerial behavior.
