When they are most vulnerable right after the stroke, friends and family need to make sure your loved one is allowed to fight the battle to regain their lost abilities. They may not be able to talk or to swallow, they may be completely paralyzed on one side, they may have some temporary memory or emotional issues, and even their eyesight may be affected for awhile. However the majority of stroke victims want to fight to regain what they have lost, they want to have the chance to return to their former life or a facsimile of one. They might even be satisfied to return to a different life where running marathons is not required. Many stroke victims who where the most severally disabled and suffering from all the indignities of the disorder reclaim most of their prior skills and add a few new ones. Their mental powers of thought and personality are usually less affected than their obvious physical losses. It is those mental powers that create great authors and advocates for the disabled. They know exactly what it felt like being encased in a body that didnt respond to their commands, to not have a voice and no way of communicating their thoughts. They are the ones that eventually write the most absorbing stories and biographical novels on their struggle to return to a life maybe a different life but one that with an impact on others lives from their insight. This book was written to expose the patients rights, what the familyfriends can expect, and to let you know there is a life after stroke. A handicapped person can be an inspiration to...
