

## Biotechnology Demystified (Paperback)

By Sharon Walker

McGraw-Hill Education - Europe, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book. This book helps you discover all the red-hot areas of biotechnology! Encompassing everything from promising new drug therapies and experimental treatment of genetic disorders to potential pandemics and bioterrorist threats, biotechnology is one of the most talked-about and exciting branches of science. And there is no faster or more effective way to master all the essential subtopics within this emerging area. Biotechnology Demystified lets you learn at your own comfortable pace. Coverage advances logically and smoothly, from the basics of molecular and cellular biology to more complex topics. In this unique guide, learning is continually reinforced and achievement demonstrated. Multiple-choice quizzes at the end of chapters and a final exam help guide you to topic mastery - without stress or anxiety. This one-of-a-kind self-teaching text helps you: understand molecules and the cellular basis of life - how information flows within the cell, DNA replication and cell division, how cells interact with what's outside, explore essential experimental techniques in biotechnology - the stuff of CSI; learn what's involved in cancer and the cell cycle; infectious diseases; immunology; genetic disease; find out what...
